INFORMATION ON HIV/AIDS TREATMENT, PREVENTION, AND RESEARCH

About AIDSinfo

AIDSinfo is a U.S. government service that offers information on HIV/AIDS treatment, prevention, and research. It is maintained by the National Library of Medicine, which is part of the National Institutes of Health. The service is provided for:

- Health care providers and researchers
- People living with HIV and their families and friends
- Other consumers of HIV/AIDS-related information

Information is available via the AIDSinfo website and mobile apps. AIDSinfo information specialists also respond to requests for information by telephone, email, and postal mail.

Visit infoSIDA to explore Spanish-language HIV/AIDS resources.

Guidelines
Federally approved HIV/AIDS medical practice guidelines. Brief versions of the guidelines offer quick access to treatment recommendations and tables. Information is also available on the AIDSinfo HIV/AIDS Guidelines app.

Drug Database
Information on FDA-approved HIV/AIDS and opportunistic infection drugs and investigational HIV/AIDS drugs. Information is also available on the AIDSinfo HIV/AIDS Drug Database app.

Clinical Trials
Search tool offers easy access to HIV/AIDS-related clinical trials. To find trials, select from a menu of preconfigured searches or create your own search.

Understanding HIV/AIDS
Fact Sheets
Easy-to-understand fact sheets on a variety of HIV-related topics.

Infographics
Infographics that help simplify complex HIV-related concepts.

HIV/AIDS Glossary
Definitions for more than 750 HIV/AIDS-related terms. Includes images highlighting select glossary terms. Hard copies of the glossary are available, and information can also be found on the AIDSinfo HIV/AIDS Glossary app.

AIDSinfo is federally funded and sponsored by
• National Institutes of Health
• National Library of Medicine
• National Institute of Allergy and Infectious Diseases
• Office of AIDS Research
• Health Resources and Services Administration
• Centers for Disease Control and Prevention
