

On December 11, 2013, the [Guidelines for the Prevention and Treatment of Opportunistic Infections in HIV-Exposed and HIV-Infected Children](#) was updated to eliminate the dosing recommendation for anidulafungin for patients 18 years and older (found in the [Candida Infections](#) section and in [Table 3: Treatment of Opportunistic Infections in HIV-Exposed and HIV-Infected Children—Summary of Recommendations](#)). Users should reference the [Guidelines for the Prevention and Treatment of Opportunistic Infections in HIV-Infected Adults and Adolescents](#) for information on this patient population.
